HEC MONTRÉAL

Dr Pierre-Majorique Léger

Dr Pierre-Majorique Léger is a full professor in information technologies at HEC Montréal, director of the ERPsim Lab (erpsim.hec.ca) and co-directeur of Tech3Lab (tech3lab.hec.ca).

He holds a Ph.D. in industrial engineering from École Polytechnique de Montréal and has done post-doctoral studies in information technologies at HEC Montréal and NYU Stern. He is also Invited professor at Henry B.Tippie College of Business (University of Iowa) and Tuck School of Business (Dartmouth University).

He is a principal inventor of ERPsim, a simulation game to teach ERP concepts, which is now used in more than 150 universities worldwide and many Fortune 1000 organisations such as SAP, ABB, Conoco Philips and Deloitte.

His current research focuses on NeuroIS.

Jean-François Michon

Jean-François currently holds the position of ERPsim Lab Operations Manager and is a lecturer at HEC Montréal. He is responsible for supporting faculty members using ERPsim, developing our internal processes and our external activities, manages the support team and contributes to product development.

Jean-François holds a Master's degree in Administration (E-Commerce) from Université de Sherbrooke and a Bachelor's Degree in Administration (Information Technology) from HEC Montréal.

ERPsim

A gamified approach
to learn ERP concepts and business analytics

ERPsim Mission :

Conduct research, development and transfer in the field of serious games in information technology.

ACADEMIC

Since 2009, more than

11000 simulations

in 190 universities around the world.

20 000 students

used ERPsim in 2013

900 faculty

trained on ERPsim worldwide

COMMERCIAL

Many large organizations such as SAP, GE, Boeing and GM are using ERPsim to train their end-users on ERP systems.

Authentic OM
problem solving

5. Discussion and conclusions

In this paper, we presented an innovative pedagogical approach (ERPsim) using PBL to teach operations management in the context of integrated information systems that is authentic, ill-structured, student-centered, and facilitator-driven. The realism of the ERPsim approach brings technology, operations management, and strategy together in one forum for learning.

	MEAN	SD
During the simulation itself	6.10	0.83
During the debriefing with the instructor	5.77	1.03
Following the simulation when the students meet between classes to discuss their team performance	5.56	0.94
In the team discussions before the simulation is played	4.94	1.21
In preparation for the class	4.73	1.38
In the lecture presentation prior to the simulation game	4.48	1.27
Reading the associated textbook	4.38	1.28

The ERPsim Academic Community

- 1** The access to ERPsim and the pedagogical material (eBook, slides, videos) are the main source of ERPsim R&D funding.
- 2** All contributors of the ERPsim Lab have transferred their copyrights to the Lab's.
- 3** ERPsim Lab's mission is to ensure the continued development and support of this simulation software.
- 4** All proceeds from the sales are used to fund the continuous development of ERPsim, the faculty service desk and the personnel behind it.
- 5** HEC Montréal grants a free educational ERP Simulation Game license to members of the SAP University Alliance (client request subject to a fee from the UCC).

ERPSIM A GAMIFIED APPROACH TO LEARN ERP CONCEPTS AND BUSINESS ANALYTICS

ERPSIM WEBSITE :

Enhanced Navigation and Learning Portal

One of the key changes is the navigation.

All nodes now have a menu, and are either linked to one of the four main sections, or the Learning Portal.

The navigation within the Learning Portal has also been improved, where the content can either be accessed by content type or by game.

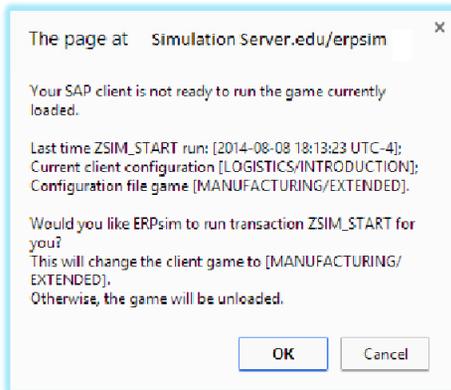

The screenshot displays the ERPSIM Learning Portal website. At the top, there is a navigation bar with the following links: HOME, ABOUT ERPSIM, OUR SERIOUS GAMES, RESEARCHERS, HOW TO CITE ERPSIM, LEARNING PORTAL, SERVICE DESK, and CLASS MGMT. Below this, there is a secondary navigation bar with the same links, plus a language selector for English and Français. The main content area is titled "Learning Portal" and includes a brief description: "The Learning Portal contains a wealth of documentation and training materials. Take time to familiarize yourself with the concepts of the ERPSim games, and pay special attention to the tutorials. Stay up to date by consulting the news sections and take a look at the ERP resources to familiarize yourself with the SAP software." Below this, there are two sections: "Content by Type" and "Content by Game Version". The "Content by Type" section features five categories: Books, Job Aids, Slides, Videos, and Exercises, each with a representative image. The "Content by Game Version" section features three HEC Montréal ERP Simulation Game logos: Distribution, Logistics Introduction, and Manufacturing Introduction. Below these logos is a table with the following content:

Distribution	Logistics Introduction	Manufacturing Introduction
	Logistics Extended	Manufacturing Extended
	Logistics Platinum	Manufacturing Advanced

At the bottom of the screenshot, there are two additional categories: Logistics Platinum and Manufacturing Advanced.

User Groups and Workshops

User Groups and Workshops

4th ERPsim User Group Meeting

The ERPsim Lab is pleased to invite you and your colleagues to the 4th ERPsim User Group Meeting.

The meeting will be held at HEC Montréal (Montréal, Québec, Canada) from June 15th to June 18th 2015.

Also, do not miss one of the two breakout sessions that will be held at the SAP Academic Conference EMEA in Berlin on September 9-10 2014.

We will also be present at the SAP Academic Conference Americas in 2015.

User Groups and Workshops

Level 1: ERPsim Instructor

OBJECTIVES

- Learn how to use ERPsim effectively and become confident in using the solution
- Understand how to implement ERPsim and SAP in a curriculum

COVERAGE

Before the workshop

- Distribution game (pre-workshop game)

During the workshop

- Manufacturing Introduction
- Manufacturing Extended
- ERPsim Console administration
- Simulation game and enactive learning pedagogical approaches

User Groups and Workshops

Level 2: ERPsim Trainer

Level 1 training required

OBJECTIVES

- Learn advanced ERPsim functionalities
- Obtain the Level 2 certification to become a "train-the-trainer"

COVERAGE

- Logistics game
- New: ERPsim on HANA
- ERPsim BI and SAP BusinessObjects
- Advanced pedagogical approaches and troubleshooting

Level 2 Certification Exam
